21 **BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:**

PART I**SECTION 1-1.**

Title 20 of the Official Code of Georgia Annotated, relating to education, is amended by revising Code Section 20-2-49, relating to standards for local board of education members, as follows:

"20-2-49.

The General Assembly finds that local boards of education play a critical role in setting the policies that lead to the operation and success of local school systems. School board members hold special roles as trustees of public funds, including local, state, and federal funds, while they focus on the singular objective of ensuring each student in the local school system receives a quality basic education. Board duties require specialized skills and training in the performance of vision setting, policy making, approving multimillion dollar budgets, financial management, and hiring a qualified superintendent. The motivation to serve as a member of a local board of education should be the improvement of schools and academic achievement of all students. Service on a local board of education is important citizen service. Given the specialized nature and unique role of membership on a local board of education, this elected office should be characterized and treated differently from other elected offices where the primary duty is independently to represent constituent views. Local board of education members should abide by a code of conduct and conflict of interest policy modeled for their unique roles and responsibilities. And although there are many measures of the success of a local board of education, one is clearly essential: maintaining accreditation and the opportunities it allows the school system's students."

SECTION 1-2.

Said title is further amended by revising subsection (e) of Code Section 20-2-51, relating to election of local board of education members, persons ineligible to be members or superintendent, ineligibility for local boards of education, and ineligibility for other elective offices, as follows:

"(e) In addition to any other requirements provided by law, no person shall be eligible for election as a member of a local board of education unless he or she:

- (1) Has read and understands the code of ethics and the conflict of interest provisions applicable to members of local boards of education and has agreed to abide by them; ~~and~~
- (2) Has agreed to annually disclose compliance with the State Board of Education's policy on training for members of local boards of education, the code of ethics of the

local board of education, and the conflict of interest provisions applicable to members of local boards of education; and
 (3) Has completed all prior annual training requirements established by the local board of education and the State Board of Education pursuant to Code Section 20-2-230 if such person is eligible for reelection as a member of the local board of education.

Each person offering his or her candidacy for election as a member of a local board of education shall file an affidavit with the officer before whom such person has qualified for such election prior to or at the time of qualifying, which affidavit shall affirm that he or she meets all of the qualifications required pursuant to this subsection. This subsection shall apply only to local board of education members elected or appointed on or after July 1, 2010."

SECTION 1-3.

Said title is further amended by revising Code Section 20-2-58, relating to regular monthly meeting of local boards, adjournment, temporary presiding officer, and notice of date, as follows:

"20-2-58.

(a) It shall be the duty of each local board of education to hold a regular meeting during each calendar month for the transaction of business pertaining to the public schools and to review the financial status of the local school system. Any such meeting may be adjourned from time to time, and, in the absence of the president or secretary, the members of the local board may appoint one of their own number to serve temporarily. The local board shall annually determine the date of its meeting and shall publish it either in the official county organ or, at the option of the local board of education, in a newspaper having a general circulation in said county at least equal to that of the official county organ for two consecutive weeks following the setting of the date; provided, however, that the date shall not be changed more often than once in 12 months and, if changed, the new date shall also be published as provided in this Code section.

(b) The State Board of Education shall create a template for local boards of education to use to review the financial status of their local school systems, which shall include, at a minimum, a statement of revenues, expenditures, and encumbrances."

SECTION 1-4.

Said title is further amended by revising Code Section 20-2-61, relating to fundamental roles of local boards of education and local school superintendents, as follows:

"20-2-61.

(a) The fundamental role of a local board of education shall be to establish policy for the local school system with the focus on student achievement. The fundamental role of a local school superintendent shall be to implement the policy established by the local board. It shall not be the role of the local board of education or individual members of such board to micromanage the superintendent in executing his or her duties, but it shall be the duty of the local board to hold the local school superintendent accountable in the performance of his or her duties; provided, however, that requesting and reviewing financial data and documents shall not constitute micromanaging. Local board of education members should work together with the entire local board of education and shall not have authority as independent elected officials but shall only be authorized to take official action as members of the board as a whole. Nothing in this subsection shall be construed to alter, limit, expand, or enlarge any powers, duties, or responsibilities of local boards of education, local board members, or local school superintendents.

(b) Except as may be allowed by law, no local board of education shall delegate or attempt to delegate its policy-making functions."

SECTION 1-5.

Said title is further amended by revising Code Section 20-2-67, relating to local school system or school subject to corrective action plan for budget deficit, financial operations form, publication, and mailing to Department of Education and local governing body, as follows:

"20-2-67.

(a) When an audit by the Department of Audits and Accounts finds and reports irregularities or budget deficits in the fund accounting information regarding a local school system or a school within the local school system, the Department of Audits and Accounts shall report the findings of irregularities or budget deficits to the State Board of Education and the local board of education. The Department of Audits and Accounts shall designate local school systems that have had reported irregularities or budget deficits for three or more consecutive years as high-risk local school systems and shall designate local school systems that have had reported irregularities or budget deficits for one year or two consecutive years as moderate-risk local school systems.

(b) The State Board of Education shall inform the superintendent of the local school system of the irregularities or budget deficits regarding a local school system's or a school's fund accounting information, including if a local school system has been designated as a high-risk local school system or moderate-risk local school system. The superintendent shall submit to the Department of Education a response to the findings and a corrective

action plan approved by the local board of education at a board meeting within 120 days of receiving notice of designation as a high-risk local school system or moderate-risk local school system, as defined by rules and regulations adopted by the State Board of Education designed to correct the financial irregularities or budget deficits for the school or school system. From the time such irregularity or budget deficit is discovered until the time it is eliminated, the local school superintendent shall present to each member of the local board of education for his or her review and written acknowledgment a monthly report containing all anticipated expenditures by budget function for such school or school system during the current month. The report shall be presented to local board members on or before the tenth business day of each month. Each monthly report shall be signed by each member of that local board and recorded and retained in the minutes of the meeting of the local board of education.

(c) Not later than September 30 of the year, each local board of education shall cause to be published in the official county organ wherein the local school system is located once a week for two weeks a statement of actual financial operations for such schools or school system identified by the Department of Audits and Accounts as having financial irregularities. Such statement of actual financial operations shall be in a form to be specified and prescribed by the state auditor for the purpose of indicating the current financial status of the schools or school system. Prior to publication, such form shall be executed by the local board of education and signed by each member of said board and the local school superintendent.

(d) A copy of the actual financial operations form required to be published by subsection (c) of this Code section shall be mailed by each local board of education to the Department of Education and the local county board of commissioners or local municipal governing authority. A current copy of said form shall be maintained on file in the central administrative office of the local school system for public inspection for a period of at least two years from the date of its publication. Copies of the statement shall be made available on request."

(c) The department, in consultation with the Office of Student Achievement, shall make a recommendation to the state board on whether the proposed terms of the contract should be approved by the state board. The goal for each waiver and variance shall be improvement of student performance. The state board shall not be authorized to waive or approve variances on any federal, state, and local rules, regulations, court orders, and statutes relating to civil rights; insurance; the protection of the physical health and safety of school students, employees, and visitors; conflicting interest transactions; the prevention of unlawful conduct; any laws relating to unlawful conduct in or near a public school; any reporting requirements pursuant to Code Section 20-2-320 or Chapter 14 of this title; the requirements of Code Section 20-2-210; the requirements of Code Section 20-2-211.1; or the requirements in subsection (c) of Code Section 20-2-327. (a) As used in this Code section, the term 'turnaround eligible schools' means the schools that have performed in the lowest 5 percent of schools in this state identified in accordance with the state-wide accountability system established in the state plan pursuant to the federal Every Student Succeeds Act.

(b) The Chief Turnaround Officer, in conjunction with the ~~Department of Education~~ State School Superintendent and the Office of Student Achievement, shall annually identify the

lowest-performing schools that are deemed ~~to be in~~ as having the greatest need ~~of~~ for assistance based on a list of turnaround eligible schools prepared annually by the Office of Student Achievement. If the Chief Turnaround Officer, after consulting with ~~Department of Education staff and~~ the State School Superintendent, determines that the capacity and resources available to the Chief Turnaround Officer and to the Department of Education are insufficient to serve all schools on the turnaround eligible schools list, the Chief Turnaround Officer may select a subset of such schools based on the following factors:

- (1) Whether the school's rating has been improving or declining over the previous three years, based on the state-wide accountability system;
- (2) Whether the contract for strategic waivers school systems or the charter for charter systems adequately addresses the school's deficiencies;
- (3) Whether the school is in a local school system with a recent accreditation report showing deficiencies in system level governance, school level leadership, system and school level resource utilization, or school level achievement, including the areas of reading and mathematics proficiencies;
- (4) Whether the school is located in a local school system in which one-half or more of the schools are on the turnaround eligible schools list for the fifth or more consecutive year;
- (5) Whether the school is in close proximity to a school that will be served pursuant to paragraphs (1), (2), (3), or (4) of this subsection; and

The amendment shall be for the purposes of agreeing to receive assistance pursuant to this part for such identified school or schools. For any such local board of education that is offered the opportunity to amend its system contract or charter but that does not sign an amendment within 60 days of being offered the amendment or that declines to sign an amendment, the State Board of Education shall within 60 days either implement one or more of the interventions contained in paragraph (6) of subsection (a) of Code Section 20-14-41 for such school or terminate the system contract or charter as allowed by the terms of such contract or charter.

(d) For any local school system that is not a charter system or a strategic waivers school system, the Chief Turnaround Officer shall extend an opportunity to the local board of education for each school identified pursuant to subsection (b) of this Code section to enter into an intervention contract for the purposes of agreeing to receive assistance pursuant to Code Section 20-14-46 for such identified school or schools. For any such local board of

education that is offered the opportunity to enter into an intervention contract but that declines, the State Board of Education shall immediately implement one or more of the interventions contained in paragraph (6) of subsection (a) of Code Section 20-14-41 for such school.

(e) For any school on the turnaround eligible school list which is not selected as part of the subset of schools to be assisted by the Chief Turnaround Officer due to insufficient capacity and resources, the Department of Education, ~~through its~~ Education's school improvement division, shall begin or continue focused supports and a pre-diagnostic review utilizing all relevant data held at the state level as it relates to the local school system and school, including financial audits, funding allotments, federal funds, state assessment data, and the most recent local school system accreditation report regarding system level governance and leadership, resource utilization, teaching and learning effectiveness, and academic achievement."

The local board of education shall not be eligible for supplemental funding to support the implementation of the plan unless such local board demonstrates financial need based on its most current annual budget and the results of the most recent audit. The local board of education shall coordinate the hiring and contract renewal process for personnel and the allocation of school resources to support such plan. In developing the timelines in the intensive school improvement plan, the school shall take into consideration the budget cycles, employment contract deadlines, and other appropriate factors relating to the planning process.
